Learn Something New Every Day

TLS, Inc. is giving you an opportunity to "Learn Something New" this October, by offering two lighting expos.

In an effort to reach as many of those interested as possible, we are having one expo in Birmingham, Ala. and one in Clinton, Miss. The first expo will be at The Alabama Theatre in Birmingham, Ala. on October 6th, followed two days later on October 8th, at Morrison Heights Baptist Church in Clinton, Miss.

Complete with hands on training, CEU credits, and food(!), the expos will feature in-depth discussions with industry professionals on the latest in lighting technology. Our vendors will have hands-on stations and will be available to answer your questions.

This series is designed for the serious tech student and lighting professional, but is open to engineers and architects who are looking to learn more

about this growing area of technology.

Topics will include:

- Building and using lighting networks
- Media Servers - the convergence of lighting and video
- LED lighting
- Lighting for camera

There will be representatives from several of our vendors, including ETC, Altman, and Elation. You won't want to miss the Green Hippo* demonstration.

October 6th 11am - 8pm
The Alabama Theatre
Birmingham Ala.

October 8th 11am - 7pm
Morrison Heights Baptist Church
Clinton, Miss

Please visit www.tlsinc.com/training.html for more info. Email jlaney@tlsinc.com to RSVP for the Birmingham expo; sross@tlsinc.com for the Clinton expo.

**Ok, it's not a REAL green hippo - it's a cool new media server!*

On Site Repairs

Do you have a dimming system that's not doing its job? Have you got fixtures hanging that you just can't reach? Or are you tired of doing a balancing act on top of a ladder that would land you a job in a circus? Let our Field Services Department handle all that for you.

Call Matt or Erin to set up an appointment to have your lamps changed, have your dimmer repaired, or get those fixtures refocused. They can also do routine maintenance on your fixtures and control console.

Be sure to ask about the Maintenance Agreement.

The NEW Rental Price Guide

will be available soon.
