It's Double "V's" for Paisley Tour - Vari*Lite® & Versa® Tubes

Brad Paisley's 2007 tour, *Bonfires and Amplifiers*, kicked off in Chattanooga at the end of April. The light rig includes 714 Element Lab™ Versa® Tubes arranged in impressive "walls" of bright LED light, and a total of 112 Vari*Lite® fixtures. (Complete gear list to the right)

The frames for all those tubes and moving lights had a short gestation - go-

ing from drawings on a legal pad to functioning in just 45 days.

The Versa® Tubes have video capability, which make for some great visual stimulation, especially with the mud slinging graphics during Paisley's hit song - "Mud on the Tires".

The Crew:

Lighting Vendor: Spurlock Lighting in conjunction

with TLS, Inc.

Lighting and Visual Content Designer: Dean Spurlock

Crew Chief: Dean Spurlock

*Vari*Lite Tech:* Michelle "Pickles" Greismer

Tube Tech: Jonathan Edwards

Electricians: Brace Balthrop & Zac Zagrodzky

TLS, Inc. In-house Project manager: Shannon Scott

Versa® Tubes & Vari*Lite® on Brad Paisley Tour

Merrimack Update

Merrimack's Grand Opening will be held later in the year and we will report on it in a later issue.

Sandra Returns

Sandra Glover returned to the Sales Department in March after her year long absence dealing with radiation and chemo for breast cancer. She would like to thank everyone for their continued thoughts and prayers. Her latest check-up showed an "all-clear". Yea, Skippy!
